

Commitment for the use of the Kempten University Library outside of staffed opening hours

Library user number: _____

I hereby commit to complying with the following rules of conduct. I am aware that violations may result in revocation of access permission.

1. Access to the library outside staffed opening hours is permitted only after authentication with one's own key card. Access to the library is granted only after signing this commitment and the declaration of consent for data use.
2. Entry of multiple persons using only one key card, even for short access periods, is prohibited, regardless of whether the persons have their own authorization or not.
3. The library is used exclusively as a place for studying and working. Any other use is prohibited.
4. Media may only be taken out of the library if they have been checked out to the borrowing account at the self-checkout machine. Otherwise, the book security system will detect the theft, which will also be penalized as such.

Consent to the evaluation of access control data and video surveillance

I would like to make use of the Kempten University Library outside staffed opening hours. I consent to access control data being stored and reviewed on a random basis or in individual cases where there is concrete suspicion of misuse. I also consent to video surveillance in the library being evaluated on a random basis and in individual cases where there is concrete suspicion of misuse. Random video surveillance may be carried out in real time or retrospectively. No general storage of video recordings takes place.

This declaration of consent may be revoked by either party at any time with effect for the future, with the consequence that I will no longer be able to use the library outside regular opening hours.

I have read both pages of this document, understood them, and agree fully with the contents.
